Statement on UK SI 2012 No. 3032

The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 (RoHS) deals with the prevention and prohibition of various hazardous substances in electric and electronic equipment.

The Regulations entered into force on January 2nd, 2013. Since July 22, 2019 RoHS covers all electrical and electronic equipment, excluding specific equipment mentioned in Regulation 5.

Electrical and electronic equipment manufactured by MENNEKES is in accordance with UK SI 2012 No. 3032.

For the purpose of the Regulations no more than the maximum weight concentration value of the prohibited substances in homogeneous materials is present, except as permitted by exemptions.
